

I am a retired Marine and senior citizen over 65, and needed more life insurance. MEG Financial exceeded all my expectations in helping me obtain a competitive life insurance policy. They were able to secure very low rates from a well-known insurance company within a reasonable time. Their staff went out of their way helping me in setting up the military allotment. They also provided recommendations for my existing insurance policies that enabled me to take advantage of policy options that I was not aware of. MEG Financial really went above and beyond to make sure that all my life insurance needs were met. I would thoroughly recommend MEG Financial to anyone that has questions about their current policies or is shopping for life insurance.
