Dear Matthew

I am writing this note to express my heartfelt thanks for the services you have provided me through MEG Financial. After being told by Matrix Direct I was not insurable due to my weight, and having a policy bungled by Select Quote, and then to find they would not honor their quote to me, doing business with you was refreshing. You offered me a policy @ \$82.00 per month for 10 years and \$100,000.00. I thought this was very reasonable considering my health factors. And then when you told me that Prudential Insurance decided to give me a lower rate and that I could have the exact same policy for \$57.00 per month, I was really thrilled about this. You then gave me the option to extend the policy 5 more years for only about \$3.00 more per month. I now have a 15 year \$100,000.00 policy for the low sum of \$60.15 per month which is astonishing for someone who had been refused coverage by Matrix Direct.

I appreciate your professionalism and customer service. You really show that you care and will go the extra mile for your customers.

I am pleased to recommend your services to anyone. You have relieved a concern for me and I don't have to worry about my wife being taken care of in the event of my death.

Sincerely,

A handwritten signature in cursive script that reads "David S. Licon".
